

# Forever

Joy Crookes

Why are we still gripping to forever?  
Why we tryna love with so much pressure?  
Although the chance of loss is high  
Memory marks my mind, and that's forever  
And ever, ever, and ever

Heartbreak consistent like British weather  
But I don't let you go

'Cause you  
You've been living on my mind  
Memory  
Rivers running from my eyes  
So whether you're with me or not  
Remember that we traded love, and that's forever  
And ever, ever, and ever

Forever was a thought with you  
But you could convince me that  
My brown eyes had turned to blue  
Saw my mum make my dad cry  
As a child, I learnt there's no forever

Six feet under, wrapped in white  
Washed your body, sleep tight  
Tomorrow never guaranteed  
But you're alive in me, and that's forever  
And ever, ever, and ever

'Cause you  
You've been living on my mind  
Memory  
Rivers running from my eyes  
So whether you're with me or not  
Remember that we traded love, and that's forever  
And ever, ever, and ever  
Ever and ever, ever and ever

Nothing's forever  
Don't apply the pressure  
We're not together  
Memory lasts forever

Whether you're with me or not  
Remember that we traded love  
And that's forever
