

## Far Cry

Joy Denalane

There's a fire that's burning and it won't die down  
(There's a fire that's burning and it won't die down)  
Got the whole world spinnin' 'round and 'round and 'round  
(Got the whole world spinnin' 'round and 'round and 'round)  
Conquer the wind, fly through the sky  
(Conquer the wind, fly through the sky)  
See the world from above through the eagle's eye  
(See the world from above through the eagle's eye)

Not a thing that's out of reach, we can do anything  
But the things we have achieved, I really make believe and fall  
So far

A far, far cry from the fire inside  
From the fire inside

We're losin' connection with technology  
(We're losin' connection with technology)  
And we can't be together like we oughtta be  
(And we can't be together like we oughtta be)  
Everyday people left in the rain  
(Everyday people left in the rain)  
Nobody's got many for a rainy day  
(Nobody's got many for a rainy day)

Not a thing that's out of reach, we can do anything  
But the things we have achieved, I really make believe and fall  
So far

A far, far cry from the fire inside (Oh-do-do)  
(Oh-do-do-do)  
A far, far cry from the fire inside

Inside, inside  
Inside, inside  
Inside, inside  
Inside, inside
