

When Does a Heart Move On

Joy Williams

One night, two sides
For worse, for better
Awake and asleep at the same time
I'm home, you're gone
But I leave the light on
But we both know that you're not coming home
We both know that you're not coming home

When does a heart move on?
Do you know the moment that it's over?
'Cause we could drag this on and on
Tried to be strong but it's been too long
When does a heart move on?

Who's wrong, who's right?
Who even knows these days?
Reasons to leave or stay?
I'm tired, so tired
Of holding it together
Maybe it's meant to break

When does a heart move on?
Do you know the moment that it's over?
'Cause we could drag this on and on
Tried to be strong but it's been too long
When does a heart move on?

Where did you go?
Where do I go from here?
Are you ever coming home?

When does a heart move on?
Do you know the moment that it's over?
'Cause we could drag this on and on
Tried to be strong but it's been too long
When does a heart move on?
When does a heart move on?
