Check Out My New Jesus

Joy Zipper

You said I'm unclean You know I know about those things Shiver in the sun I like my clothes when they're undone People gather round Check out the patches on my new jeans Gather round

I I just wanna be god

Check out my new Jesus He talks and he walks If you want him to Nevermind the thorns They're only there to confuse you People gather round Check out the patches on my new jeans Gather round

I I just wanna be god

You say I'm unclean You know I know about those things Shiver in the sun I like my clothes when they're undone People gather round Check out the thorns on my new Jesus Gather round
