

# Out Of The Sun

Joy Zipper

Today I woke up and thought how much  
I love the sun and if you go I'll be so sad  
If you fly to another planet  
Where things are sane

Then it came to me the other day  
It was so unreal so mannequin  
And they're right the body's just a shell  
If you stare hard enough you'll notice

The it came to me  
From another place  
And I buried it  
I buried it  
Sun

Then it came to me the other day  
It was so unreal so mannequin  
And they're right the body's just a shell  
If you stare hard enough you'll notice
