

Valley Stream

Joy Zipper

I'm the sun and you're the moon
We're like two prisoners we two
Underground and out of touch

You're the moon and I'm the sun

You play the drums, I'll grow a beard
We're like two dinosaurs living ghere
In Valley Stream, Long Island

You're the moon and I'm the sun

He came in through the door
Came in right out of the blue
Then he did the moonwalk
And I made him a carrot juice

I'm the sun, you're the moon

You load the gun, I'll get the rope
There's nothing left to do living here
In Valley Stream out of touch

You're the moon and I'm the sun

He came in through the door
Came in right out of the blue
Then he did the moonwalk
And I made him a carrot juice
He lives in his car, you live in your car
He came in through the door
Came in right out of the blue
