

Do You Really Want to Not Get Better?

Joyce Manor

From the capital letter.

Do you really want to not get better?

Could you see me in your life? Could you try?

Even after you've been gone for an actual endless amount of time.

Would you even know?

Could you see me in your life?

Could you see me in your life? Could you try?

From the capital letter.

Do you really want to not get better?
