

Falling Into It

Joyce Manor

I've got lots of love besides the love of me and you
I've been taking notes on all the finer things you do

But we're falling into it, falling into it, falling into it
Yeah, we're falling into it, falling into it, falling into it

When you're in a dream you are as sweet as you are true
When we seem to meet, I start to feel it shining through

And we're falling into it, falling into it, falling into it
Yeah, we're falling into it, falling into it, falling into it

And we're falling into it, falling into it, falling into it
Yeah, we're falling into it, falling into it, falling into it
Yeah, we're falling into it
