

Breakdown

Joydrop

And I don't hear you anymore
And I can't see you on the floor
It's like a nightmare come to life
But don't be frightened of the light

[Chorus:]

And all the days you pushed around
And all the times you lied to yourself
And all the dreams we had just might
Breakdown
And I wonder who you love
Really love

You know I want you too much
You know it kills me, the thought
I want to scream, I want to cry
Just to save myself just one last time

[Chorus x2]

And all the days you pushed around
And all the times you lied to yourself
And all the dreams we had just might
Breakdown
And I wonder who you love
Really love
