

# Spiders

Joydrop

When love was fresh  
Like a web we'd mesh  
Nothing felt better than your flesh  
Against my flesh

One fatal slip  
One rip, a tear  
Touch me now and every single hair  
On my body stands on end.

So don't touch me anymore  
'Cause it feels like spiders  
Like spiders all over me  
Like spiders;  
Like spiders all over me.

In the darkest corners of my mind  
You creep  
Underneath my pillow at night  
When I sleep  
Those hands I once  
Longed to feel...  
I want to squash them under  
My hell.

So don't touch me anymore  
'Cause it feels like spiders  
Like spiders all over me  
Like spiders;  
Like spiders all over me.

I never thought it would end this way  
I never thought I'd see the day  
I never thought I'd hear myself say

Don't touch me anymore  
'Cause it feels like spiders  
Like spiders all over me  
Like spiders;  
Like spiders all over me.  
Like spiders;  
Like spiders all over me  
Like spiders;  
Like spiders all over me.
