

Blank Slate

Joywave

Let me take a little bite
Help me zero out my mind
I've become electrified
Off onto another ride

I'll be your blank slate baby, come on
I'll be your blank slate baby, come on
I'll be your blank slate baby, come on
I'll be your blank slate baby
Blank slate baby
Blank slate baby, come on

Mold me to another form
Press me till I'm raw and sore
I'm the one you can't ignore
I'm the one you can't ignore

I'll be your blank slate baby, come on
I'll be your blank slate baby, come on
I'll be your blank slate baby, come on
I'll be your blank slate baby
Blank slate baby
Blank slate baby, come on

Where do I go, when there's nowhere left to go
(Baby, come on)
Where do I go, we're not lonely anymore
(Baby, come on)
What do I do, when I'm shaking without you
(Blank slate baby)

(Blank slate baby, come on)

I'll be your blank slate baby, come on
I'll be your blank slate baby, come on
I'll be your blank slate baby, come on
I'll be your blank slate baby
Blank slate baby
Blank slate baby, come on

Where do I go, when there's nowhere left to go
(Baby, come on)
Where do I go, we're not lonely anymore
(Baby, come on)
What do I do, when I'm shaking without you
(Blank slate baby)

(Blank slate baby, come on)
