

Compromise

Joywave

I have seen the plans laid out for me
All the walls they build from reality
So I find somewhere deep down inside my brain
Where I can get away

'Cause I don't wanna toss and turn forever
No I just wanna know what could have been
No I don't wanna sacrifice the future
No I just wanna live for me again

I have seen the curse that boredom brings
Watched it wash away sanity
So I find somewhere deep down inside my brain
Where I can get away

'Cause I don't wanna toss and turn forever
No I just wanna know what could have been
No I don't wanna sacrifice the future
No I just wanna live for me again

'Cause I don't wanna toss and turn forever
No I just wanna know what could have been
No I don't wanna sacrifice the future
No I just wanna live for me again
