

# Pressure Cookin'

Joywave

I liked you better  
I liked you better  
I liked you better

You changed, you tried  
You metamorphosized  
All pain, no prize  
A different shape and size

We were living life down under the ground, yeah  
Under the ground, yeah  
Under  
Under  
We were pressure cooking with no one around, yeah  
No one around, yeah  
No one  
No  
No

I liked you better  
I liked you better before you cut your hair  
I liked you better  
I liked you better  
I liked you better before you cut your hair  
I liked you better  
I liked you better  
I liked you better before you cut your hair

You changed your mind  
Left someone else inside  
A shame, a crime  
Enlightenment sublime

We were living life down under the ground, yeah  
Under the ground, yeah  
Under  
Under  
We were pressure cooking with no one around, yeah  
No one around, yeah  
No one

I liked you better  
I liked you better before you cut your hair  
I liked you better  
I liked you better  
I liked you better before you cut your hair  
I liked you better  
I liked you better  
I liked you better before you cut your hair

I liked you  
I liked you  
I liked you

We were living life down under the ground, yeah  
Under the ground, yeah  
Under

Under

We were pressure cooking with no one around, yeah

No one around, yeah

No one
