

Ridge

Joywave

It goes with me
It goes with me
It goes with me
It goes with me

I feel the first bone break
I hear the metal scrape
It goes with me
It goes with me

I heard they washed away
All of the carpet stains
Into the night
Into the night

I got a nice bouquet
She got her wheels set straight
Into the night
Into the night

Into the night

She's ready to go
She's ready to go
She's ready to go
She's ready to go

All my things
We'll all move to different places
All my fame
All over again
No one wants to sleep with a pharaoh
Nothing feels quite like possession

She's ready to go
She's ready to go
She's ready to go
She's ready to go
