

## Ugly Ending

Joywave

(It's come to an ugly ending  
It's come to an ugly ending  
It's come to an ugly ending  
It's come to an ugly ending)

It's nothing like I thought it'd be  
It's not how I imagined  
It's interesting but not enough  
To justify the action  
It's left me feeling kinda weak  
It's bleak, anticlimactic  
(It's come to an ugly ending  
It's come to an ugly ending)

You don't mind if I lie for a moment  
I think that flowers gonna spring up, make this weather break  
Close your eyes, synthesize different versions  
I tell myself these little myths I don't even believe in

Now I'm bored, I'd like to skip ahead  
And see the ending  
I'm scrolling forward, I hit ignore  
It's hard to keep pretending  
I canceled plans, I washed my hands  
The feeling's still impending  
(It's come to an ugly ending  
It's come to an ugly ending)

You don't mind if I lie for a moment  
I think that flowers gonna spring up, make this weather break  
Close your eyes, synthesize different versions  
I tell myself these little myths I don't even believe in

When it all came crashing down  
No guns, no flames, no sounds  
Got no armies hosing crowds  
Just some kids talking way too loud  
Just some kids talking way too loud

You don't mind if I lie for a moment  
I think that flowers gonna spring up, make this weather break  
Close your eyes, synthesize different versions  
I tell myself these little myths I don't even believe in
