We Are All We Need

Joywave

I was a boy who kept a list of everybody who wouldn't let me in
Sense of humor now about it but there's jadedness where love sh
ould have been

Drove around town 'til the last stone thrown was hollow
Wait a couple years and now all I've got left is sorrow, ooh
'Cause I've found

We are all we need
We got them other boys talking nervously, ah, ah, ah
We are all we need
We got them all to take a swing with jealousy, ah, ah, ah, ah

I built a shell to insulate me from the winter and the weight o
f the earth
But I found it filtered out compassion, always laughing takes a
 toll on your worth

Drove around town 'til the last stone thrown was hollow
Wait a couple years and now all I've got left is sorrow, ooh
'Cause I've found

We are all we need
We got them other boys talking nervously, ah, ah, ah
We are all we need
We got them all to take a swing with jealousy, ah, ah, ah, ah

Now I know
Now I know
Now I know
Yeah I know

We are all we need
We got them other boys talking nervously, ah, ah, ah
We are all we need
We got them all to take a swing with jealousy, ah, ah, ah, ah
We got them all to take a swing with jealousy
We are all we need
We got them all to take a swing with jealousy, ah, ah, ah, ah
