

Who Do You Like?

Joywave

I saw you down, in the background
Moving your mouth, I see him I say "get out!"
Just go, go, go "get out!"
Wait, don't don't don't don't don't

I picked you out, of a full house
I saw your lips, but no words I want coming out
Don't don't don't "get out!"
Wait, don't don't don't don't

There's no one I know who's more patient than me
Who's been waiting this long for your moment to peak
Does he know where you wake up?
Does he fit you like a glove?
Cuz I know where you belong
So tell me

Who do you like? [3x]

I took you out, showed you around
You took me home, just so you could kick me out
Wait, don't don't don't kick me out
I'll go go go go go

Through the forest, over water
To the true north I'll discover lovers
In a cabin, on a mountain
Under blankets of snow and polyester
Cuz I know where you belong
So tell me
