

Nothing Ever Changes

JP Cooper

This used to be a taxi
Broken bottles in the back seat
First kiss in a burned-out car
That still sits in the corner of the park
'Cause the council never took it away
It gave the kids somewhere new to play
I said I'd take you anywhere
I never made it out of there

And nothing ever changes her
So you know where I'll be
You told me that you'd come back (Come back)
So when you gonna come back to me?
You know that I'll be waiting here
With those old memories
Hoping that you'll come back (Come back)
'Cause nothing feels the same when you're not here

Nothing ever changes
Nothing feels the same when you're not here
Nothing ever changes
Nothing feels the same when you're not here

You got the job you dreamed of
Now you're living up in New York City
I hear you're overlooking Central Park
I bet it doesn't have a burned-out car
Tell me do you ever think about us?
Back here where everything's the same as it was
I've been hanging with the bar flies
Ever since you told me goodbye

Oh, and nothing ever changes here
So you know where I'll be
You told me that you'd come back
So when you gonna come back to me?
You know that I'll be waiting here
With those old memories
Hoping that you'll come back
'Cause nothing feels the same when you're not here (Woah)

Nothing ever changes
Nothing feels the same when you're not here
(When you're not here)
Nothing ever changes
Nothing feels the same when you're not here
(Tell when you coming back)
Nothing ever changes
Nothing feels the same when you're not here
(When you're not here)
Nothing ever changes
Nothing feels the same when you're not here
(Tell me when you coming back)

Nothing ever changes
