

# Passport Home

JP Cooper

I just stepped off the train  
Dodging the evening rain  
These days just ain't the same without you, lady  
Right now my feet are wet  
And they don't know the steps  
Or maybe they regret me leaving, lady

You're my passport home  
My guiding light  
My hand to hold  
Oh, don't you know that you're my passport home  
Without you close I can't go on  
So darling keep the light on  
Keep the light on  
Keep the light on  
Keep the light on

I step back on the stage  
The people call my name  
These crowds just ain't the same without you, lady  
And though they sing along I'd rather hear your song again, again

Oh, don't you know that you're my passport home  
My guiding light  
My hand to hold  
Oh, don't you know that you're my passport home  
Without you close I can't go on  
So darling keep the light on  
Keep the light on  
Keep the light on  
Keep the light on

You're the only one who knows every weakness I've exposed  
And I can't believe you chose to see this through  
You're the picture in my heart and I loved you from the start  
That's the reason I keep coming back to you

So darling keep the light on  
Keep the light on...  
You're my passport home  
Without you close I can't go on
