

# Anybody Else

JP Saxe

Say no say no I'm tellin' myself  
But then  
I choose you over my mental health  
Instead  
I know the reasons I know everything we said  
But pull me closer as you tell me them again  
You're looking less and less like a friend  
Friend

But wait  
I'm scared your scared  
But we're still going there  
Lady, I'm not prepared  
To need you everywhere

I wish I wanted anybody else  
But don't stop  
Before I can't stop myself  
I say that I want to control this  
But deep down I hope that it's hopeless  
Don't stop  
I wish I wanted anybody else

Say no say no I'm not ready for this  
So soon  
But maybe I don't know what ready really is  
With you  
Hips on my fingertips  
Lips getting used to this  
With your skin on my skin  
And your legs on my chest  
You look less and less like a friend  
Friend

But wait  
I'm scared your scared  
But we're still going there  
Lady, I'm not prepared  
To need you everywhere

I wish I wanted anybody else  
But don't stop  
Before I can't stop myself  
I say that I want to control this  
But deep down I hope that it's hopeless  
Don't stop  
I wish I wanted anybody else

I've been fighting with myself  
But I lose every time  
I've been fighting with myself  
So I say something like  
"I don't know if I'm alright with this  
People say we could get hurt like this  
Don't you look at me that way  
Cause I'll forget every warning...  
Fuck let's just talk in the morning"
