

Anywhere

JP Saxe

I know I've been away too long
And phone calls can't replace my arms
I promise you, I'm coming back
You say, "Then why doesn't it feel like that?"

I understand why you believe
Everybody leaves

But baby
There's no reason to worry
No reason to be scared
No matter where I go
I'm not going anywhere
Give me the time to prove it
I know I'll get you there
No matter where I go
I'm not going anywhere

I know you miss the way it was
That honestly makes two of us
Just know if and when you need it to
My world will have a place for you

I understand why you believe
Everybody leaves

But baby
There's no reason to worry
No reason to be scared
No matter where I go
I'm not going anywhere
Give me the time to prove it
I know I'll get you there
No matter where I go
I'm not going anywhere

I'm not going anywhere

There's no reason to worry
No reason to be scared
No matter where I go
I'm not going anywhere
Give me the time to prove it
I know I'll get you there
No matter where I go
I'm not going anywhere
