I've done 2 AM arguin' with someone else's doubts
Tryna unravel hesitations that aren't mine to figure out
Left that version of love at her door
Skepticism ain't sexy to me anymore
I've done ruinin' moments alone with my friends
'Cause I've been textin' about problems that never seem to end
I don't wanna be a question like before
Skepticism ain't sexy to me anymore

So, baby, don't, please, don't
Want me in moderation
You can't be halfway
When I'm all, all the way in
Baby, don't, please, don't
Want me in moderation
You can't be halfway
When I'm all, all the way in

(When I'm all, when I'm all, when I'm all the way)
All the way
All the way
(When I'm all, when I'm all, when I'm all the way)
You can't be halfway
When I'm all

Quiero que conmigo entregues lo que nunca has entregado
Lo que guardas en baúles con cadenas y candados
Y aunque me perdí la movie que escribiste en tu pasado
El spoiler es que acabas siendo feliz a mi lado
Y dicen los enciclopedias
Que un amor no sirve de nada si se entrega a medias

Baby, no, porfa, no
Me ames con moderación
Yo no sé pero siento
Que no has dado cien por ciento
Baby, no, porfa, no
Me ames con moderación
Yo no sé, pero siento
Que no has dado el cien por ciento

(When I'm all, when I'm all, when I'm all the way)
All the way
Cien por ciento
(When I'm all, when I'm all, when I'm all the way)
You can't be halfway
When I'm all

I've done chasin' after someone who is too afraid to try
To love themselves and me at simultaneous times
Maybe the challenge is what I was lookin' for
But complicated ain't sexy to me anymore

So, baby, don't, please, don't
Want me in moderation
You can't be halfway
When I'm all, all the way in

Baby, no, porfa, no
No me ames con moderación
Yo no sé, pero siento
Que no has dado el cien por ciento

(When I'm all, when I'm all, when I'm all the way)
All the way (No me ames con moderación)
All the way
(When I'm all, when I'm all, when I'm all the way)
You can't be halfway (Yo no sé, pero siento)
When I'm all, all the way in (Tú no has dado el cien por ciento, mm)
