

# Safe

JP Saxe

Never needed a sword  
Never needed a shield  
Never stormed a castle  
On a battlefield

I haven't needed a fist  
Since third period gym  
Jeremy Copeland  
Honestly fuck that kid

21st century  
There's still so much fight in me

I want to make you feel safe  
Whatever that means  
Am I strong enough to  
Let you feel free

If you want to stay  
If you need to leave  
I'm still learning  
What it means to be  
Protective, show affection

When to fix it, when to listen...  
How to say

"I'm right here babe"

I want to make you feel safe

I'm tryna be open  
Not to close off  
Stoic is easy  
It's hard to be soft

You whisper my name  
Like I've never messed up  
With my head on your lap  
You make me feel tough

Fighting biology  
There's still so much fight in me

I want to make you feel safe  
Whatever that means  
Am I strong enough  
To let you feel free

If you want to stay  
If you need to leave  
I'm still learning  
What it means to be  
Protective, show affection

When to fix it, when to listen...  
How to say

"I'm right here babe"

I want to make you feel safe
