

Smartphone Make Me Dumb

JP Saxe

I can't get outta bed
There's nothing good I can imagine

It's scary in my head
I'm not ready for these interactions
I'll do anything for a distraction

Smartphone make me dumb
Whiskey make me numb
Women make me
Mmm, mmm

Don't leave me alone with my thoughts
Don't leave me alone with my thoughts
Please
Don't leave me alone with my thoughts
Don't leave me alone with my thoughts

Is anything else open?
Can we stay out just a little longer?

I'll take anything over
Letting my mind wander
My subconscious is a fucking monster

Smartphone make me dumb
Whiskey make me numb
Women make me
Forget what I'm running from

Please
Don't leave me alone with my thoughts
Don't leave me alone with my thoughts
Please
Don't leave me alone with my thoughts
Please
Don't leave me alone with my thoughts
