

Against The Law

JR JR

It's against the law
It was against the law
It's against the law
It was against the law

They ain't no really your nation
They just be following fables
You see, my vision is braving
I see the future I'm checking
Another driving howl
All selling, mistaken
I bend my laser beam
Gravel, pop, sizzle like bacon
Shake that ass, like Kelis
We building a nation
If it's taring it down
I do the tearing and leasing

I got a lot of babies
But I ain't got a lot of them to show
There's nothing I can say when
I see the way we're trying to go
Maybe what I did today
Give a big excuse
Make to the crazy things we do
Things we do

Waiting in the sleep
For the sweet release
I don't chase trains
Let them be what they be
Let them be what they be
Let them be what they be

I got a lot of babies
But I ain't got a lot of them to show
There's nothing I can say when
I see the way we're trying to go
Maybe what I did today
Give a big excuse
Make to the crazy things we do
Things we do
