Dark Water

JR JR

No one knows what it was that made them go
Explore the dark, dark water
Your flashlight won't light as much as you would hope
When you're in the dark, dark water
All you have are the memories you'll change

In the dark
In the dark

Maybe you were always drowning
(So far)
And you just now realized that you were
(So far down)
Can't no sun reach down to warm your body now

There's creatures there we've not seen yet so beware
When you're in the dark dark water
If you rise too fast your lungs will just collapse

In the dark
In the dark

Maybe you were always drowning
(So far)
And you just now realized that you were
(So far down)
Can't no sun reach down to warm your body now

(Dark Dark)

Maybe you were always drowning
(So far)
And you just now realized that you were
(So far down)
Can't no sun reach down to warm your body now

Dark dark dark water
In the dark dark
Dark water
In the dark dark
Dark water
In the dark dark
Dark water
