

Fade Out

JR JR

It's the simple things you do
You turn the light on in the dark
It's a dream sleep walking through
How many times have I missed out on you

I wanna slow it down
Get stuck in the here and now
All the voices screaming
All the noises
You and me will let it fade out

It's the little things you do
Reading Longfellow never listen to the news
It never stops, it's one long loop
We don't have to be right, we don't play by those rules

I wanna slow it down
Get stuck in the here and now
All the voices screaming
All the noises
You and me will let it fade out
You and me will let it fade out
Oh

(Slow it down)
(Get stuck in the here and now)
All the voices screaming
All the noises
You and me will let it fade out

It's the simple things you do
You turn the light on in the dark

I wanna slow it down
Get stuck in the here and now
All the voices screaming
All the noises
You and me will let it fade out
You and me will let it fade out
Oh
