

For My Brother

JR JR

I wrote this song for my
For my brother
I wrote it just because I had to
Cause it's the only thing I've always done
I seldom show these things to anyone

So if it's cold
He'll let me know
And if it's night, it all right
Cause I've got my own radio
I've got my own radio
I've got my own radio
My own radio

I played this song for my
For my lover
I played it just for us to dance to
See, sometimes the only thing I decently do
I hold her close and tell her this one's for you

So if it's cold
She'll let me know
And if it's night, it all right
Cause I've got my own radio
I've got my own radio
I've got my own radio
My own radio

If it's night, it all right
Cause I've got my own radio
I've got my own radio
I've got my own radio
I've got my own radio
I've got my own radio
I've got my own radio
