

Retrace

JR JR

I can't remember my birthdays
From when I was a kid
Maybe some years we had parties
At least I hope that we did

All of my recollections
When I think back on you
I look fine in projections
Even if they're not true

In the song I play from memory
You're a missing melody

Maybe that's the reason why
I can't retrace
Every time I start to try
I lose my place
Why do I always get stuck on the past
Want to go back
Maybe you're the reason why
Maybe you're the reason why

I still enjoy celebrations
Every chance that I get
Make the most of the moment
Cause I always forget

In the song I play from memory
You're a missing melody

Maybe that's the reason why
I can't retrace
Every time I start to try
I lose my place
Why do I always get stuck on the past
Want to go back
Maybe you're the reason why
Maybe you're the reason why

In the song I play from memory
You're a missing melody

Maybe that's the reason why
I can't retrace
Every time I start to try
I lose my place
Why do I always get stuck on the past
Want to go back
Maybe you're the reason why
Maybe you're the reason why
