

Sunburn

JR JR

Got that sunburn on my shoulders
Can't get it staying in my room
Got that sunburn on my shoulders
Outside working in the roots

I need to feel it
And see it
The Earth in my hands
And beneath it
If there' something there
If there's something there
I'm gonna find it out

Got that sunburn on my shoulders
Can't get that staring at a Zoom
Got that sunburn on my shoulders
Outside flowers are in bloom

I need to feel it
And see it
The Earth in my hands
And beneath it
If there' something there
If there's something there
I'm gonna search it out

Got that sunburn on my shoulders
Distracted social nom de plume
Got that sunburn on my shoulders
Tried so hard to bear some fruit

I need to feel it
And see it
The Earth in my hands
And beneath it
If there' something there
If there's something there
I need to get it out

Got that sunburn on my shoulders
Can't get that in a business suit
Got that sunburn on my shoulders
Used to be so absolute

Now I wanna feel it
And see it
The Earth in my hands
And beneath it
If there' something there
If there's something there
I wanna let it out

Got that sunburn on my shoulders
Back to Adam in the nude
Got that sunburn on my shoulders
This whole thing was so overdue

Now I can feel it
And see it
The Earth in my hands
And beneath it
It was always there
It was always there
I just see it now
