

# Wild Child

JR JR

Cross my fingers now  
You hide under the desk  
All that I've known seems shaky at best

Time feels like it's slowing  
But you know it's not  
All my life I could not keep up

And he goes and he goes and he goes and he goes  
For miles and miles and miles  
And he goes and he goes and he goes and he goes  
Like a wild, like a wild, he's a wild child  
Ooh  
He's a wild child  
Ooh  
He's a wild

Cross my fingers when  
You close your eyes and wish  
Things I have longed for I hardly miss

Time feels like it's slowing  
But you know it's not  
All my life I could not keep up

And he goes and he goes and he goes and he goes  
For miles and miles and miles  
And he goes and he goes and he goes and he goes  
Like a wild, like a wild, he's a wild child  
Ooh  
He's a wild child  
Ooh  
He's a wild

All my life I could not keep up  
All my life wouldn't be enough

And he goes and he goes and he goes and he goes  
For miles and miles and miles  
And he goes and he goes and he goes and he goes  
Like a wild, like a wild, like a wild  
And he goes and he goes and he goes and he goes  
For miles and miles and miles  
And he goes and he goes and he goes and he goes  
Like a wild, like a wild, he's a wild child  
Ooh  
He's a wild child  
Ooh  
He's a wild  
Ooh  
I wanna be like that wild child
