

Go Away

JRDN

I can see just what your thinking, yeah
And I can feel that lonely vibe, yes I can
But I've got to go and find my own way
Gotta keep this thing alive, but I'm leaving here tonight
There's not much more that I can do here
So much more I know is out there to see
Guess there's a part of me that you complete
So I'm taking all your love with me

If you can let me go, go, woahh (I wanna go)
Where I can do (what I gotta do)
What's best for me and what's best for you
And make our dreams a reality
I do this girl (ohh I do it baby)
For you and me, you and me girl
You, you and me girl
You, you and me girl
You, you and me

I'm going to a brand new city, yeah
But I'm not changing all my friends
All this is, is a new beginning
A new chapter in my book but not a means to an end
This won't work if I start growing (ohh no)
Both in love is what we need
I spend my days and nights just knowing
That one day you'll be with me and we can start our family

Let me go, go away (go away)
Where I can do (where I can do)
What's best for me (what's best for me)
And what's best for you
And make our dreams a reality
You see I do this for you girl
I do this girl (yeah I do this for ya girl)
For you and me

Let me go, go away (so far away)
Where I can do (all I gotta do)
What's best for me and what's best for you
And make our dreams a reality
Ohh I do this girl for you and me

And I don't wanna go but this path that I chose
Girl it leads me away from you
But it's not your fault you did nothing wrong
I just wanna, wanna thank you for being so strong

Let me go, go away
Where I can do (where I can do)
What's best for me (what's best for me)
And what's best for you
And make our dreams a reality
Ohh I do this for you girl
I do this girl, for you and me

Let me go, go away (all I gotta do)

Where I can do
What's best for me (what's best for me and you)
And what's best for you
And make our dreams a reality
Ohh I do this girl
For you and me
You, you and me girl (you and me)
You, you and me girl
You, you and me girl (you and me)
