

## Mrs. Right Now

JRDN

I think my next excuse walked in  
Oh, I do it all the time and I'm doing it again  
Guess I'm trippin', won't you fall with me? Yeah  
Baby, we can give our all in this, yeah  
My story, my woes, this is how the life goes  
Turning strangers into lovers into lovers into foes  
Got me thinkin' something's wrong with me, yeah  
I just want someone to belong to me, yeah

I'm alone for the evening, I'm not leaving this way  
I'm so stoned, I've been drinking to relieve all this pain

Oh, Mrs. Right Now  
You're perfect for the evening  
This won't last long, ooh  
Oh, Mrs. Right Now  
You know I'll be in love by the end of this glass  
We ain't gotta be right but we gotta be

So sad my song, my mama raised a rolling stone  
And the nights like these make me realize I'm alone  
Can you tell me where the lowly run?  
I know I can't be the only one  
Damn near flyin' off a glass of red wine  
I know anything could happen 'cause it happens every night  
When we wake up in the morning, huh  
We're not lovers, we're just lonely ones

I'm alone for the evening, I'm not leaving this way  
I'm so stoned, I've been drinking to relieve all this pain

Oh, Mrs. Right Now  
You're perfect for the evening  
This won't last long, ooh  
Oh, Mrs. Right Now  
Know I'll be in love by the end of this glass  
We ain't gotta be right but we gotta be right now  
We ain't gotta be right but we gotta be right now  
This ain't gotta be right but it's gotta be

Fall in love 'til we make a disaster in the making  
I'm sorry (I'm sorry)  
I'm sorry in advance  
'Cause I've been in and out of love so many times, many nights  
Had many tries to get it right  
But I'm still wrong

Oh, Mrs. Right Now  
You're perfect for the evening  
But this won't last long, ooh  
Oh, Mrs. Right Now  
Know I'll be in love by the end of this glass  
We ain't gotta be right but we gotta be right now  
We ain't gotta be right but we gotta be right now  
This ain't gotta be right but it's gotta be right now

Me and Mrs. Right Now

We ain't gotta be right but we gotta be right now  
Talk until the sunlight, yeah  
This ain't gotta be right but it's gotta be right now  
Me and Mrs. Right Now  
We ain't gotta be right but we gotta be right now  
Talk until the sunlight, yeah  
This ain't gotta be right but it's gotta be right now  
Me and Mrs. Right Now  
We ain't gotta be right but we gotta be right now  
Talk until the sunlight, yeah  
This ain't gotta be right but it's gotta be right now
