Lay It Down

JT Hodges

Baby, let's lay it down

I'm your texi, you're my co
You're my rock and I'm your roll
Red light, green light, that means go

We've been flirtin' way too long
Flip the switch let's turn it on
Time to dance, crank up this song

Come on
Let's lay it down, no one's around
Call me honey and I'll call you mine
Take it to town, pedal to the ground

All this talkin' don't you think it's time
Oh baby let's lay it down

You're the train and I'm your track
Get this goin' don't look back
Shake your little sugar shack

You're my engine, I'm your steam
I'm your coffee, you're my cream
Girl you know just what that means (what that means)

Let's lay it down, no one's around
Call me honey and I'll call you mine
Take it to town, pedal to the ground

All this talkin' don't you think it's time
Oh baby let's lay it down

Got my love, all my kisses baby
Comin' down the highway burnin' bright
And I can feel your heartbeat beatin' crazy tonight

Oh baby let's lay it down tonight
That's right, that's right

Let's lay it down, no one's around
Call me honey and I'll call you mine
Take it to town, pedal to the ground

All this talkin' don't you think it's time
Oh baby let's lay it down

Oh baby let's lay it down
