

Don't Think Twice

J.Tajor

I been thinking 'bout the way you brush your hair
Gotta stop and stare
Nonstop running through my mind yeah
Nobody could compare yeah
I wonder if you might
If you feel the same I can't hide
I'll keep it plain and simple yeah
You been on my mind all day

You can call at night
Baby don't think twice
Just let me inside
Let yourself unwind
You've never felt so right
Let me, I'll provide
Girl I want you with me
The one I've been dreaming of yeah

You've been broken in the past yeah
Wondering if it'll last yeah
I got plenty love inside my heart to give you it'll last yeah
A lifetime
That's all I want with you girl
I'll treat you like a queen, give you everything
Baby I'll give you the whole world
And when you with me, ain't nothing you gotta hide
When you with me, it's us forever, you and I
You need a man who gon' provide for ya
Trust me baby, I'm the guy for ya
Swear I'd probably even die for you, I'll ride for you

You can call at night
Baby don't think twice
Just let me inside
Let yourself unwind
You've never felt so right
Let me, I'll provide
Girl I want you with me
The one I've been dreaming of

You can call at night
Baby don't think twice
Just let me inside
Let yourself unwind
You've never felt so right
Let me, I'll provide
Girl I want you with me
The one I've been dreaming of yeah
