

Friend

Juanita Bynum

Friend, there will never be a friend
As dear to me as you
There will never be another
That's closer than a brother

Friend, always worth the wait
Faithful as the day
You say we are friends

You know all about me
The good and the bad
You know when I rise
Yes and fall

You see my beginnings
Stand at the end
And yet you remain faithful to say
I am your friend

Friend, there will never be a friend
As dear to me as you
There will never be another
That's closer than a brother

Friend, always worth the wait
Faithful as the day
You say we are friends
