Won't fall again and I put that on me (I put that on me), yeah

I feel a way, my heart all on my sleeve (All on my sleeve), yeah

That's why I had to put my wrist on freeze (Wrist on bling, blaow)

Come for the win, can't take another L (Can't take another L)

Designer on me, this that new Chanel (This that new Chanel)

This that splat (Splat), this that drip (Drip)

Yeah, yeah this the winnin' team

Six rings with a pinky ring

Everybody used to pick at me

Now I'm the one that they picking

Snakes out, they hissing

But I can't hear 'em when the crowd screams

Still balling like a offspring

This for all the ones that doubted me

Gotta lose once to be a true winner

Only want the hundreds with the blues in it

Even blood will cross you, where the blood thinner?

Jucee stay turnt like the plug in 'em

I been through that water like Olympic swimmers

Only bread and butter what we ate for dinner

So I had to dream until the dream was bigger

Only want the gold, we don't need the silver

Gotta be number one, number two never count (Count)

Used to have bubble guts, competition now pourin' 'em out (Out)

Making my babies proud, wanna cop my mama a house (House)

Coming straight out the South, gotta know Jucee to end the drought, yeah (Mm
