Yeah

I'm sick and tired of this shit
Might die from trying to get rich
Act like you blind to this shit
I drop like diamonds in the mix

I shine like a diamond in the rough
Been so long, it's tough
I know that hard times was so tough
But if you stay down, you'll come up

Yeah, try with me
All the married try with me
Reality
Smack me like it's ODB
Facts on me
These little bitches can't rap to me
Asking me
Come through Armageddon scene
Taking no more
Never had shit, but I made it the most
Probably got bit, but I never did fold
How is you real and you selling your soul?
I'm a diamond and I came from the coal
Hell no, I just had to sleep in the cold
You fake and you know
You a snake and you know
You playing a role

Right by my side
Real big nine
Eye to eye
Don't you lie
No disguise
Up there, let it fly
Forever Fly
Told you let's don't die

I'm sick and tired of this shit
Might die from trying to get rich
Act like you blind to this shit
I drop like diamonds in the mix

I shine like a diamond in the rough
Been so long, it's tough
I know that hard times was so tough
But if you stay down, you'll come up

Sunshine or rainy day
I wish you'd fade away
I probably made mistakes
Too real, you can't relate
He like I never ate

Be like I never ate
I only want revenge
I do not wanna pray
They try to hold you down
And count you out
They say you change, you change like in the couch
They call you names, throw dirt just for some clout
Just know whatever is up, it must come down

I'm sick and tired of this shit
Might die from trying to get rich
Act like you blind to this shit
I drop like diamonds in the mix

I shine like a diamond in the rough
Been so long, it's tough
I know that hard times was so tough
But if you stay down, you'll come up
