

Distance

Jucee Froot

I might be no good for you girl, trust me, love me from a distance

I can see me and you in a penthouse right now, f*cking when we kissing

I don't even trust myself, how can you trust me? Love me from a distance

Two wrongs don't make a right, but it's only one night, boy you know you get it on site

My distant lover, know we gotta f*ck with no rubber

We don't need no covers, know it get wetter than a puddle

I give you 50 feat, but tell me, do you need more?

Remember when deep throat

TLC, so baby get your creep on

She a freak, but baby we ain't I don't see nothing wrong with a bump and grind

Just wanna bust it when we on the Facetime

taste like

Turn you to a feend When you coming through, I'm coming too that's all I do

I might be no good for you girl, trust me, love me from a distance

I can see me and you in a penthouse right now, f*cking when we kissing

I don't even trust myself, how can you trust me? Love me from a distance

Two wrongs don't make a right, but it's only one night, boy you know you get it on site

Been too long, I been patient
