

## Folk-Hop Sound

Judah & the Lion

It's a new wave, it's a new culture  
Like a new found love, coming over you  
A familiar sound, reawakened  
So put the windows down and ride around with the song playing

Don't you feel like letting go?  
Don't you feel like letting go?  
Don't you feel like letting go?  
Don't you feel like letting go by turning up the stereo to the  
folk-hop sound!

It's like Superman, going up and away  
It's like a long lost dream, coming awake  
It's like a midnight sun, never going down  
You stay awake your bound to break the speakers with your sound

Now lean to the left and ride to the right  
Now shake it, shake it, do your jive  
Shake it, now give yourself a high five

And lean to the left and ride to the right  
Now shake it, shake it, do your jive  
Shake it, now give yourself a high five

Now we don't care 'bout money  
We don't care 'bout Benzes  
We don't care 'bout honey's  
Me and all my friends, yeah  
We just want to play our music, and play it loud  
And if you help us sing we'll break the speakers with the SOUND  
!

Bicycle, Bicycle, hey, hey  
Bicycle, Bicycle, hey, hey  
Bicycle, Bicycle, hey, hey  
Bicycle, Bicycle, hey, hey
