

Children of the Sun

Judas Priest

Sunsets on the nations
Worlds in her disguise
Pray for all that matters
Saviour in my eyes

Children of the sun
Dying one by one

Eden has been wasted
Deadly poison fills the air
Kneel down in forgiveness
While there's still time if you care

Children of the sun
Dying one by one
Children of the sun
Dying one by one

I couldn't dream
To be without her kind
They wouldn't let her be
Or heal what she defiled

You are the hate that beats mankind
Torturous lies that lead the blind
Squandered the truth from all we said
You are the reason I feel dead

Mountains start to crumble
Tumble in the sea

Children of the sun
Dying one by one
Children of the sun
Dying one by one

Children of the sun
Dying one by one
Children of the sun
Dying one by one
