Judas Rising

Judas Priest

White bolt of lightning Came out of nowhere Blinded the darkness Created the storm

War in the heavens Vengeance ignited Torment and tempest Attacks like a swarm

Forged out of flame
From chaos to destiny
Bringer of pain
Forever undying
Judas is rising

Eternal betrayer
Ice cold and evil
Taking no prisoners
Dark prince of the world

Humanity trembles
Enslaving you sinners
You can't beg for mercy
For none will be saved

The burden of sin Echoes the prophecy Ascending from hell Forever despising Judas is rising

Their faith is revealed
Deceivers are crying
By crucified steel
Evangelising
Judas is rising
Judas is rising
