

March of the Damned

Judas Priest

We're walking the streets
We know where we'll meet

Can't stop us
They don't know why they try
Can't hurt us
We'll never die

We are on the march of the damned
Of the damned
March of the damned

We know what's at stake
Won't take your mistakes

Can't break us
We'll never fall, that's all
It's over
Just watch us grow

We are on the march of the damned
Of the damned
March of the damned

We're walking the streets
We know where we'll meet

Can't stop us
They don't know why they try
Can't hurt us
We'll never die

We are on the march of the damned

Of the damned

March of the damned
