We're walking the streets We know where we'll meet

Can't stop us
They don't know why they try
Can't hurt us
We'll never die

We are on the march of the damned Of the damned March of the damned

We know what's at stake Won't take your mistakes

Can't break us
We'll never fall, that's all
It's over
Just watch us grow

We are on the march of the damned Of the damned March of the damned

We're walking the streets We know where we'll meet

Can't stop us
They don't know why they try
Can't hurt us
We'll never die

We are on the march of the damned

Of the damned

March of the damned
