One for the Road

Judas Priest

Where would you be without music You would be nowhere at all We wouldn't be here doing this now If you weren't having a ball

One for the road, sharing our load, show us the way

Can you imagine the silence Not even the pink or white noise Well thankfully we've got the license To have us some fun with the boys

One for the road, sharing our load, show us the way

The melody line's fascinating The rhythm is something divine It sends our adrenaline racing To see you all moving so fine

One for the road, sharing our load, show us the way One for the road...
