

# One on One

Judas Priest

I am your darkest hour  
I am your fall from power  
I am the voice you dread and I'm  
Screaming out inside your head

I am the final count  
I am your demons out  
I am the worst demise  
I'm gonna cut your words down to size

What is this?  
I hear you shout  
Face to face  
I'm gonna take you out

One on One  
Bring it on  
One on One  
Take me on

I am the awful truth  
I am the fearless youth  
I am the cross to bear  
And the one who dares to return your stare

I am the fist of God  
I am the underdog  
I'll always stand my ground  
While the others scatter all around

Against all odds  
Despite it all  
I'm at my best when I'm against the wall

One on One  
Bring it on  
One on One  
Take me on

I am the bloodstained past at last  
That's finally caught up with you like  
The glint of steel from out of the dark the last  
Thing you will feel - I'm outgunned, I'm out  
Run, I'm undead and then I found the skin  
You shed - I am the questions asked  
That send shivers down your back

So I am holding out  
And I'm much stronger now  
So take me on

One on One  
Bring it on  
One on One  
Take me on

I am the darkest night

I am the vipers strike  
I'll see you all consumed  
As you start to lick  
Your mortal wounds

Like the condemned man  
Who just won't die  
I'll show no remorse  
I'll never walk away

One on One  
Bring it on  
One on One  
Take me on
