

# I Will Not Die

Jude.

It only hurts me when I'm awake  
It seems to die with dreaming  
And there's only so much that I can fake  
When my whole life's careening down

I will not die

It only kills me 'cause I'm alive  
And living this disaster  
And it's all I can do now to survive  
I live to beat my master down

I will not die  
Down, I will not die

When I'm well I long to be  
Only in love with you  
But I guess, I'll never be whole  
And you know it's true

It does not stop me that we all die  
I know this trip's to slaughter  
But if only I could let me cry  
I feel the healing water rollin' down

I will not die  
Down I will not die  
Down I will not die

When you're my angel I can fly  
When you're my angel I can fly  
When you're my angel I can fly
