

Your Love Is Everything

Jude.

You were there when I was lonely
You were there when I was like a child
You were there and now I only want to see you smile

You were there to sometimes tell me
Walk away, it isn't worth the fight
You were there when I was nothing but a loser in the
night

Nobody wants me now
Take me away
Nobody wants me now
I know I know I know I know

Your love is everything
My love is real
Your love is everything I feel I feel I feel

You my love, my inspiration
My other half, my way to free
Everything I never knew I needed to belong to me

But there are lies and liars
Who have come inside to feed the fires
Screaming louder than a hundred thousand church's
choirs

But you were there when I was lonely
You were there when I was like a child

Nobody wants me now
I know I know I know I know

Your love is everything
My love is real

Your love is everything
I feel I feel I feel I feel

Nobody wants me now
Take me away

Nobody wants me now
I know I know I know I know

Your love is everything
I say my love is real

Your love is everything
I feel I feel I feel I feel

One love of mine is all I need now
You can take the place of everything
You can take the place of everything
You can take the place of everything I see
You can take the place of everything I see
You can take the place of everything I see it's

happening...

Nobody wants me now
Take me away

Nobody wants me now
I know I know I know I know

Your love is everything
My love is real

Your love is everything
I feel I feel I feel I feel

Take me away
