

At Times Like These

Judy Collins

Something in the world is shaking
Everywhere you looks, hearts breaking
Winds of change are blowing us apart
People in a wild confusion
Trusting in a grand illusion
Never face to face, or heart to heart

At times like these
Don't we all need to believe
That there is a higher power of love
At times like these
Don't we need to stop and listen
For the answer from the heavens above
At times like these

There used to be the old traditions
Rituals that gave us visions
That lifted us beyond our broken dreams
Ceremonies of the spirit
Close enough to almost hear it
How could they be so far out of reach

At times like these
Don't we all need to believe
That there is a higher power of love
At times like these
Don't we need to stop and listen
For the answer from the heavens above
At times like

Look a little closer
I'm your family
Children of the planet
There's hope for you and me
It's all there inside you
Take the time to see
If we bond together
We change our destiny

At times like these
Don't we all need to believe
That there is a higher power of love
At times like these
Don't we need to stop and listen
For the answer from the heavens above
At times like these
