

## Love Hurts

Judy Collins

Here I am at your door  
Hoping you'll come back once more  
And here I am and your love has died  
It's one thing I wish you could hide

Love hurts when you know that it's gone  
Love hurts when when you still love someone  
Love hurts when there's nothing to do  
But crty all the tears left inside you

I've heard it said that time brings relief  
But hey just how long will it take  
And here I am I feel like a fool  
For causing this fool's heart to break

Love hurts when you know that it's gone

Love hurts when when you still love someone  
Love hurts when there's nothing to do  
But crty all the tears left inside you

How can I see you like seeing a friend  
When each time I see you I break down again

Love hurts when there's nothing to do  
But crty all the tears left inside you  
Love hurts when you know that it's gone  
Love hurts when when you still love someone  
Love hurts when there's nothing to do  
But crty all the tears left inside you
